LIST OF

CHOICE SPECIALTIES

FOR

NURSERYMEN, FLORISTS AND DEALERS.

1894

July 1894.

LIBRARY RECEIVED JUL 29 1920 U.S. Department of Agriculture

JACKSON & PERKINS,

NEWARK, WAYNE CO., NEW YORK.

GROWERS OF AND DEALERS IN

ALL KINDS OF THE FINEST HARDY ROSES, CLEMENTIS, ORNAMENTAL SHRUBS, GRAPE VINES, SMALL FRUIT PLANTS AND FRUIT TREES.

We are the originators of the well-known Clematis "Ramona," and introducers of the new Climbing Rose "Empress of China," the only true perpetual flowering climbing rose known.

Send Five-cent Stamp for plate of the "Empress of China."

TO OUR CUSTOMERS.

About fifteen years ago we commenced growing a few vines and plants for nurserymen and dealers. This we have increased from year to year till now, while not the largest concern in the business, we do have every appliance and as complete a plant as can be found. Having one of the most skillful propagators in the country, some half-acre of glass, large and improved cellars, commodious packing grounds and sheds, we are enabled to furnish stock which gives entire satisfaction, and we are willing to grade our stock so well that customers are willing to continue their orders.

We propagate and grow specialties, like Hybrid Perpetual, Moss and Climbing Roses, Clematis, Ornamental Trees and Shrubs, Grape Vines, Small Fruit Plants, etc. Every year we import the best new Roses, Clematis, Paeonias and Ornamentals that we can obtain in Europe or Japan. We also have, from time to time, new varieties, especially in the Ornamental line, of our own originating. All these we thoroughly test in every way before putting them upon the market, so that they may be depended upon as being especially valuable.

PRICES.—Our expenses being quite light, we are able to offer strictly first-class stock at very moderate prices. We do not price our list by items, because we can often make better prices when we know the entire wants of a customer in the various lines or varieties. We make no charge for packing except the actual cost of the boxes. If you have never given us an order, just try us on any of the items enumerated in our list. We will guarantee satisfaction.

SHIPPING.—We have the Pennsylvania, West Shore, and New York Central Railroads and can ship goods in any direction with surety of their promptly reaching their destinations.

All orders subject to stock being unsold on receipt of same.

ROSES.

Roses are our specialty and we very justly pride ourselves on the large assortment of desirable varieties which we have to offer for this season. They are strong two-year plants, averaging two feet or more in height, out-door grown, clean, vigorous and healthy, well branched and with good roots. The most of our Roses are on their own roots. Some of the Mosses and a few other valuable varieties being very difficult or impossible to raise from cuttings, we offer in strong budded plants. They are budded low on French Manetti stock and are in every way first-class.

NEW AND RECENTLY INTRODUCED VARIETIES.

3000 EMPRESS OF CHINA. It is the only strictly perpetual blooming climber now known and bound to supercede all other climbers. It is extremely hardy, having the past winter withstood a cold of 16° below zero. It commences blooming early in the spring and continues until the ground freezes solid. It even tries to bloom during the winter. Very fragrant, is of beautiful form, being especially valuable for buttonhole boquets. Color deep red in the bud, changing to pink and red, like an apple bloom. It is nearly double, with a waxy appearance, like a tea rose. Well worthy a trial by all lovers of the rose.

460 AMERICAN BEAUTY, large, deep pink, fine form.

180 CRIMSON GLOBE, moss, a beautiful crimson, large, very double.

680 EARL OF DUFFERIN, velvet crimson, large, full and fragrant
